

Everest Sales Tax Software Solution

OVERVIEW

The Exactor Everest sales tax module was developed to enable businesses to incorporate and benefit from the Exactor sales tax compliance software from within their Everest invoices and sales orders. Once installed and setup, a user does not need to perform any additional functions to obtain sales tax calculations. The taxes are automatically calculated and seamlessly displayed in all transaction forms which require sales tax calculation, and because the invoice and sales orders communicate with the Exactor System, the Exactor Everest Plug-in generates online sales tax returns without having to transfer data from one system to another.

The Installation and User Guide provides information specifically for installing and using the Exactor Sales Tax Compliance Plug-in in the Everest ERP system.

EXACTOR EVEREST SALES TAX MODULE SOFTWARE FEATURES:

- Reasonably priced setup and customer service fees
- Easy installation using our Everest Installation & User Guide
- Complete & accurate calculation of taxes
- Address verification service
- Transparent to users while generating and updating invoices, sales orders, credit memos and other Everest forms
- Line by line tax calculation for multiple delivery invoices
- Installation is quick and easy. Simply download the Exactor Everest plug-in from your Exactor merchant account, save to your computer, and run the automated installation wizard.

Exactor is happy to take a moment to offer the NetSuite Sales Tax software solution and the EFI Pace Sales Tax compliance software to integrate the popular ERP systems with the professional sales and use tax compliance service.

With over ten (10) years of experience automating sales tax compliance, Exactor is the premier provider of Sales Tax Compliance Services. Exactor's fully automated SaaS System has been revolutionizing transaction-related tax compliance by providing an enterprise level solution for secure, reliable and accurate sales tax compliance efforts, including calculating taxes in all commercial environments, record keeping, tax processing and the generating and filing of tax returns. Exactor's dynamic Software Suite offers a simple and seamless integration of the Exactor Sales Tax Calculation Module into any business and transaction platform where real time calculation is required. The Exactor engine will then automate the process of generating and filing the returns, so that the user can focus on their sales and running the business, trusting Exactor to manage their transaction taxes. The Exactor suite offers a high level of automation, rapid delivery, and highly scalable results, ensuring an on time, on budget, enterprise-class tax solution to fit the needs of any business.
