

# First Data Sales Tax Software Solution

## OVERVIEW

The Exactor sales tax solution for online businesses to provide sales tax calculation on checkout in the First Data payment processing platform. Once connected and setup, a merchant does not need to perform any additional functions to obtain taxes. The sales taxes are automatically calculated and displayed in a transaction as it proceeds through the payment authorization process. As the Exactor sales tax solution communicates with the Exactor System, the online sales tax returns are generated automatically, so that a merchant doesn't have to transfer data from one system to another.
