

Magento Sales Tax Software Solution

OVERVIEW

The Exactor sales tax compliance extension allows businesses to calculate sales tax using the extension that can be fully integrated with the Magento open source ecommerce platform.

The Exactor Magento sales tax compliance module was developed to enable businesses to incorporate and benefit from the Exactor sales tax compliance software within their Magento shopping carts. The Exactor Magento extension is installed and configured in a couple of clicks. The sale taxes are calculated and seamlessly displayed in the Magento shopping cart. The shopping cart communicates with the Exactor merchant portal, and the Exactor system generates sale tax returns without a merchant having to transfer data from one system to another.

EXACTOR MAGENTO SALES TAX MODULE FEATURES:

- Reasonably priced setup and customer service fees
- Easy installation using our Magento User Guide
- Calculate sales tax and Value Added Tax accurately & reliably
- Address Verification Service
- Transparent to buyers when creating orders
- Sales tax calculation on a line-by-line basis for multiple delivery invoices
- Easy to install and configure – download the Exactor Magento extension from your Exactor merchant account, upload via Magento Connect and run the automated installation.

Exactor is happy to offer the Drupal Commerce Sales Tax module and the PrestaShop Sales Tax add-on to get the popular shopping carts integrated with the professional sales and use tax compliance software.
