

Microsoft Dynamics GP Sales Tax Software Solution

OVERVIEW

The Exactor Microsoft Dynamics GP Sales and Use Tax Plug-in was developed to enable businesses to incorporate sales tax calculation from within their Microsoft Dynamics GP sales/purchase orders and invoice forms. Once installed and set up, a merchant does not need to perform any additional functions to obtain sales and use taxes. The taxes are automatically calculated and seamlessly displayed in the sales/purchase orders and invoices, and because the sales/purchase orders and invoices communicate with the Exactor system, the Exactor Microsoft Dynamics GP Sales and Use tax Plug-in generates online sales tax returns without a merchant having to transfer data from one system to another.

Microsoft Great Plains User Manual provides information specifically for installing and using the Exactor Sales and Use Tax Plug-in in the Microsoft Dynamics GP ERP system.

EXACTOR MICROSOFT DYNAMICS GP SALES TAX MODULE SOFTWARE FEATURES:

- Free setup and customer service
- Easy installation using our Microsoft Dynamics Great Plains Manual
- Calculate sales tax completely & accurately
- Address verification service
- Transparent to users while generating and updating invoices, sales orders, credit memos and other MS Dynamics GP forms
- Line by line tax calculation for multiple delivery invoices
- Installation is quick and easy. Simply download the Exactor MS Dynamics GP Sales and Use Tax Plug-in from your Exactor merchant account, save to your computer, and run the automated installation wizard.

Exactor is also happy to offer the Microsoft Dynamics AX POS Sales Tax service and the Microsoft Dynamics AX Sales Tax software to integrate the Microsoft's Dynamics AX for Retail POS system and the Dynamics AX ERP (core) system with the professional sales and use tax compliance service.
