

# Miva Merchant Sales Tax Software Solution

## OVERVIEW

The Exactor sales tax compliance software enables online retailers to calculate sales tax with the plug-in that can be fully integrated into the Miva Merchant shopping cart software.

The Exactor Miva Merchant sales tax software plug-in was developed to let businesses make use of benefits provided by the Exactor sales tax compliance service within their Miva Merchant ecommerce websites. Once the Exactor merchant account is registered, a merchant does not need to perform any additional functions to obtain sales taxes. The sales tax or VAT can be calculated and displayed seamlessly in their Miva Merchant shopping carts. Since the shopping cart communicates with the Exactor merchant portal, the Exactor automated system generates the sales tax returns, and there's no need for a merchant to transfer data from one system to another.

## EXACTOR MIVA SALES TAX SOLUTION FEATURES:
