

# New Haven Sales Tax Software Solution

## OVERVIEW

The Exactor ecommerce sales tax solution provides online businesses with sales tax calculations via the plug-in that can be fully integrated into the New Haven eCMS software.

The Exactor New Haven sales tax compliance solution was developed to let retailers benefit from the Exactor sales tax service within their New Haven eCMS software. Once the Exactor New Haven sales tax solution is connected and configured, a merchant does not need to complete any additional steps to obtain sales taxes. The taxes are calculated and seamlessly displayed in the New Haven eCMS software, and because the eCMS software communicates with the Exactor merchant web portal, Exactor automatically generates the online sales tax returns and merchants are not bound to transferring sales data from one system to another.

## EXACTOR NEW HAVEN SALES TAX SOLUTION FEATURES:

- Compatible setup and customer service fees
- Easy installation using our New Haven eCMS Installation & User Guide
- Complete & accurate calculation of sales tax and Value Added Tax
- Address Verification Service
- Transparent to merchants and buyers on checkout
- Item-based tax calculation
- Simple to connect and configure.

Exactor is happy to offer the Miva Merchant Sales Tax plug-in and the Drupal Commerce Sales Tax module to get the popular ecommerce software integrated with the professional sales and use tax compliance software.
