

Microsoft Dynamic AX POS Sales Tax Service

OVERVIEW

The Exactor Microsoft Dynamics AX POS (Point of Sale) Sales Tax service was developed to enable businesses to incorporate tax calculations from within their Microsoft Dynamics AX POS sales orders and sales receipts. Once installed and setup, a merchant does not need to perform any additional functions to calculate sales tax. The Exactor sales tax software makes it possible to calculate sales tax automatically and get it seamlessly displayed in the sales orders and sales receipts. Since the sales receipts and sales orders communicate with the Exactor System, the Exactor Microsoft Dynamics AX POS Sales Tax Plug-in generates tax returns without a merchant having to transfer data from one system to another.

Microsoft Dynamics AX POS User Guide provides information specifically about installation and usage of the Exactor Sales Tax Plug-in in the Microsoft Dynamics AX POS system.

EXACTOR MICROSOFT DYNAMICS AX POS SALES TAX SERVICE:

- Free setup and customer service
- Easy installation using our Microsoft Dynamics AX POS User Guide
- Complete & accurate calculation of sales taxes
- Address Verification Service
- Transparent to users while generating and updating sales receipts and sales orders and other Microsoft Dynamics AX POS forms
- Line by line tax calculation for multiple delivery invoices

Exactor would like to offer the QuickBooks POS Sales Tax service and the Millennium POS Sales Tax module to integrate the popular POS systems with a professional sales and use tax compliance service.

With over ten (10) years of experience automating sales tax compliance, Exactor is the premier provider of Sales Tax Compliance Services. Exactor's fully automated SaaS System has been revolutionizing transaction-related tax compliance by providing an enterprise level solution for secure, reliable and accurate sales tax compliance efforts, including calculating taxes in all commercial environments, record keeping, tax processing and the generating and filing of tax returns. Exactor's dynamic Software Suite offers a simple and seamless integration of the Exactor Sales Tax Calculation Module into any business and transaction platform where real time calculation is required. The Exactor engine will then automate the process of generating and filing the returns, so that the user can focus on their sales and running the business, trusting Exactor to manage their transaction taxes. The Exactor suite offers a high level of automation, rapid delivery, and highly scalable results, ensuring an on time, on budget, enterprise-class tax solution to fit the needs of any business.
