

Paypal Sales Tax Software Solution

OVERVIEW

The Exactor sales tax solution enables online merchants to incorporate the sales tax calculation from within the PayPal payment processing platform on the checkout page. Once the Exactor sales tax solution is properly connected and configured, a merchant does not have to perform any additional actions to get the tax amounts populated into the sales orders on checkout. The sales tax or VAT are automatically calculated and seamlessly displayed in the transaction as it proceeds through the payment authorization process. Because the Exactor sales tax solution communicates with the Exactor web service, it generates online sales tax returns without a merchant having to transfer data from one system to another.

EXACTOR PAYPAL SALES TAX SOLUTION FEATURES:

- Compatible setup and service fees
- Easy connection and configuration using our PayPal Installation & User Guide
- Fast & accurate calculation of sales tax or VAT
- Address Verification Service
- Transparent to buyers while processing payments for e-commerce purchases
- Sales tax or VAT calculation on a line item basis
- Getting started is quick and easy. Simply enable your Exactor merchant account and connect the PayPal sales tax solution.

Exactor is happy to offer the Authorize.net Sales Tax solution and the First Data Sales Tax module to integrate the popular payment gateways with the professional sales and use tax compliance service.
