

VirtueMart Sales Tax Software Solution

OVERVIEW

The Exactor sales tax compliance software allows businesses to calculate sales tax by using the plug-in that can be fully integrated into the VirtueMart free shopping cart software.

The Exactor VirtueMart sales tax compliance plug-in was created for online merchants to implement and benefit from the Exactor sales tax compliance service within their VirtueMart shopping carts. Once registered with Exactor, a merchant only needs to download the Exactor VirtueMart sales tax plug-in and run a simple installation wizard. The sales taxes are calculated and seamlessly displayed in the VirtueMart shopping cart. The automatic communication of the shopping cart and the Exactor system allows generation of online sales tax returns without a merchant transferring data from one system to another.
