## OVERVIEW

The Exactor sales tax software provides online businesses with a solution for calculating sales tax via a plug-in integrated into the Zen Cart shopping carts.

The Exactor Zen Cart sales tax application was developed to incorporate and benefit from the Exactor sales tax filing service within their Zen Cart shopping carts. Once registered with Exactor, merchants don't need to any manual operations to get the sales taxes calculated. The taxes are displayed in the Zen Cart shopping cart on order checkout.
