

# VAI S2K Sales Tax Software Solution

## OVERVIEW

The Exactor VAI S2K sales tax compliance software plug-in was developed to enable businesses to incorporate sales tax calculations from within their VAI S2K sales and invoice modules. Once installed and set up, a merchant does not need to perform any additional functions to obtain sales and use taxes. The taxes are automatically calculated and seamlessly displayed in the sales orders and invoices, and because the sales orders and invoices communicate with the Exactor System, the Exactor VAI S2K Sales Tax Compliance Plug-in generates online sales tax returns without a merchant having to transfer data from one system to another. VAI provides information specifically for installing and using the Exactor Sales Tax Plug-in in the VAI S2K ERP system.

- Flexible pricing for setup and customer service
- Easy installation using VAI S2K Plug-in
- Sales and use taxes are calculated accurately & swiftly
- Address verification service cleans up addresses per USPS standards
- Plug-in operation is transparent while generating and updating invoices, sales orders, and credit memos
- Tax calculation is provided on line-by-line basis for multiple delivery invoices
